

## SECURITY PRIVATEERS LINE CARD

Security Privateers offers cybersecurity services and IT risk management solutions, making it a valuable resource for CIOs, COOs and CFOs interested in enhancing their organization's cyber defense and compliance strategies. Their expertise in areas like virtual CISO programs Cybersecurity audits and compliance Risk Assessments is particularly relevant for leaders in these roles. For more details, you can visit <https://securityprivateers.com>.

- **Virtual Chief Information Security Officer (vCISO):** Provides organizations with strategic leadership in information security without the need for a full-time, in-house CISO.
- **Retained CISO Services:** Offers the expertise of Michael Scheidell, a certified professional with credentials including CISSP, CRISC, and CCISO, to serve as your organization's named CISO.
- **Regulatory Compliance Services:** Assists in developing and implementing security, privacy, and compliance programs to meet industry standards and regulatory requirements including but not limited to PCI, HIPAA, GLBA, FFIEC, NYDFS, GDPR
- **Web Application Security Assessments:** Evaluates the security of web applications to identify vulnerabilities and ensure the integrity, availability, and confidentiality of data.
- **Internet Use and Privacy Policy Development:** Helps organizations create and update policies to protect company assets and customer information.
- **Penetration Testing:** Conducts simulated cyberattacks to assess the security posture of systems and networks, identifying potential weaknesses.
- **Cyber Forensics:** Provides expertise in investigating and analyzing cyber incidents to determine the cause and impact of security breaches.

Bio: Michael Scheidell, CISSP, CRISC, CCISO, SMIEEE, is a recognized expert in information security and privacy, with a strong history of innovation and entrepreneurship. He has developed a suite of information security products, including a patented intrusion detection system and an award-winning email security solution. Michael has founded four technology companies in South Florida: Florida Datamation, SECNAP Network Security, Security Privateers, and TeamOne.Support. As the CISO of a \$2.2 billion mail-order pharmacy, Mr. Scheidell overhauled their HIPAA Security and Privacy program. Additionally, he served for eight years as the CISO for a prominent national law firm, where he implemented cutting-edge cybersecurity measures and compliance frameworks. He is a frequent conference speaker and has received multiple awards, such as the MVP Award for Technology Leadership and the Shaping Information Security Award. Michael is also a Senior Member of IEEE and has served on the boards of the FBI's InfraGard South Florida Chapter and the Cloud Security Alliance South Florida Chapter. <https://securityprivateers.com/management/michael-scheidell.html>

# TeamOne.Support

Military Grade Support \* Because it IS a war out there.
